

I am deeply concerned about the provision proposed in Docket #02-277. I feel that broadcasters are already consolidated enough and any further compression of ownership will hurt diversity of thought and programming. Here in Sacramento, Clear Channel already owns four high-profile radio stations, the region's largest music concert venue and the largest outdoor advertising firm. Any more media ownership would not be in the public's interest. Newspaper and local TV cross-ownership rules should remain as they are and no increase in radio station ownership should be allowed. Thank you for this opportunity.
